- Name: Anton Larsson
- Date of birth: 19th November 1993
- Phone number: +46 70 758 29 93
- E-mail: **ante9311@gmail.com**

Work Experience

Consultant 2013 – 2014:

Proffice – Stockholm, Sweden:

Substituted wherever they needed me, for example at trade shows and at Verizon with responsibilities ranging from managing the trade show booth to answering telephones and receptionist duties at Philips.

This job gave me invaluable experience in adapting and dealing with different kinds of people and situations, as it was incredibly diverse and forced me to adapt to working with all kinds of different people doing all kinds of different tasks.

Summer jobs:

Såcab – Stockholm, Sweden (2015):

Repainted the outside of their office building for 8 weeks. I wanted a non mentally challenging job because I was taking extra classes, so had to remain mentally sharp to be able to study as well as work full time, so I chose a physical job.

It also provided me with the ability to experience a different kind of work environment and personalities, further increasing my ability to think outside the box and adapt to unfamiliar environments.

Ramirent – Stockholm, Sweden (2011):

Provided support wherever they needed me, cleaning equipment / assisting in the field installing equipment etc.

Education

Uppsala University 2014 – current:

Bachelor of Computer Science, minor in mathematics.

I have used this program to further develop my experience and knowledge in programming and optimization, giving me a deeper understanding of how to write efficient and maintainable programs.

Thorildsplans Gymnasium 2009 – 2012:

Technical program with emphasis on network and programming.

This program gave me valuable experience in programming and provide a solid foundation, without losing the possibility of further education.
